WAR DEPARTMENT
UNITED STATES ENGINEER OFFICE
NEW YORK DISTRICT
Room 6C1, 140 Wall St.
NEW YORK 5, N.Y.

17 April 1945

Subject: Travel Orders No. 10,199

To: Miss Edith C. Falk, Examiner-Telegraph
U. S. Engineer Office
New York, N. Y.

1. Under authority of the Secretary of War, dated 20 October 1943, you are directed to join Movement **IJ-3010-BR** at your place of hire at New York, N. Y. and to travel from that point to your confidential destination for permanent duty.
2. Travel is directed via water transportation. In lieu of subsistence a per diem of \$7.00 is authorized while in a travel status aboard ship beyond the continental limits of the United States, except when subsistence is furnished by the Government without charge to the employee no per diem is authorized.
3. Pursuant to authority granted in Public Law 580, 77th Congress, return travel to New York, N. Y. is authorized upon completion of satisfactory duty outside the continental limits of the United States.
4. Your correspondents may be advised just prior to your departure that all mail will be addressed to you at APO 14384, c/o Postmaster, New York, N. Y. Upon arrival at destination overseas, you will contact the nearest Army Post Office to arrange for receipt and dispatch of official and personal mail. Civilian personnel using an APO mailing address are not entitled to the free mailing privilege.
5. You will be immunized prior to your departure from continental United States pursuant to current War Department instructions.
6. You are hereby informed that you will have no special equipment and are authorized to ship only personal effects not exceeding 175 pounds, from present port of duty to overseas station. This baggage must be shipped to port of embarkation so as to arrive at least forty-eight (48) hours prior to sailing time or be brought to the port in your physical possession. Baggage shipped to the port will be marked with your full name and address as follows:

TO: PORT TRANS O (PB)
NY P OF E
BROOKLYN, NEW YORK

FOR: IJ-106-WH

Travel Orders, Civilian TD Employee, Shift # IJ-EC1C-BR 10011

7. This document contains information affecting the national defense of the United States, within the meaning of the Espionage Act, 50 U. S. C. 31 and 32 as amended. Its transmission or the revelation of its contents in any manner to an unauthorized person is prohibited by law.

8. The travel directed is necessary in the military service and is not for your convenience. All authorized expenses incident thereto are properly chargeable to Appropriation 212/50L25, 301-31 P 431-02,03.

22 December 1945

TO: All Officers, Enlisted Men, War Department Employees
and Allied Civilians.

I wish to express my gratitude to every member of
Group "A" for duty well performed during the past months.
The devoted, combined efforts of each of you and the as-
sistance you have given in these early and trying days of
Civil Censorship in Germany are sincerely appreciated.

I hope that all of you away from your families and
your homes this Christmas feel, with me, that we are doing
our part to assure that future Holiday Seasons may be
celebrated the world around in a true spirit of Peace and
Good will.

Please accept my heartfelt wish for a very Merry
Christmas and a Happy New Year.

MEMORANDUM:

TO : Female Restee Personnel.

UNIFORM AND LIQUOR REGULATIONS

1. The following uniform regulations are in effect in the USRRA and will be rigidly enforced:

a. For wear after 1800 hours when attending shows, dances and night clubs:

(1) Female personnel.

(a) Class "A" officers duty dresses as prescribed by regulation.

(b) Evening dresses may be worn at dinner and in the evening.

b. During the day:

1. Insignia of grade and arm of service will be worn by officer personnel at all times.

2. Uniform slacks (O.D. and shade 33) with regulation shirt. Suitable sports clothes may be worn ONLY WHEN ENGAGED IN SPORTING EVENTS. Except when so engaged the uniform prescribed in par. 1 a above will be worn.

3. Attention Nurses. White shirts may be worn with beige skirts only.

4. Following are listed a few of the more flagrant violations which will not be tolerated:

- (a) Absurd headgear.
- (b) Seersucker slacks or dresses.
- (c) Shirts outside trousers or skirts.
- (d) Rolling up trouser legs.
- (e) Rolling up sleeves of shirts.
- (f) Improper placement of insignia.
- (g) Wearing of unauthorized insignia.
- (h) Wearing of play shoes and colored socks with uniform slacks.

5. Liquor bottles, when carried, will be wrapped or concealed. Drinking is prohibited in hotel lobbies, on the streets, and while in busses or trucks.

6. Violators of uniform and liquor regulations will be reported to the C.O. and immediate action will be taken under 104 A.W. The Assistant Director will require that violators be directed to report to the C.O. at 0830 the following morning at Nice for disciplinary action.

BY ORDER OF COLONEL PUGH:

Donald E. Downard
DONALD E. DOWNARD
Lt Col Inf
Assistant Director

* WELCOME TO THE RIVIERA *

There are many things here for you to see and enjoy. Read the information herewith and ask at the INFORMATION BOOTH FOR DETAILS AND RESERVATIONS. Effort has been made to have everything informal and pleasant for you. Regulations are kept to a minimum. The basic requirement, to conduct yourselves as officers and gentlemen, will usually suffice. Violations of this requirement will be the subject of the same disciplinary action as elsewhere in the army.

Officers, while on rest leave in Cannes, are excused from rendering the salute. To make unnecessary the return of the salute, Station Complement Enlisted Personnel are excused from saluting Restee Officers, although required to salute all officers on duty in the District. Failure upon the part of an Enlisted Man to salute you is not an indication of lack of respect; he has been excused from saluting you for your convenience.

The following points are brought to your attention for information, guidance and compliance:

1. Certain French establishments operate exclusive American bars at controlled prices. These bars will be clearly designated and prices will be posted.
2. You are billeted in the best room available at the time you arrive. We CAN NOT change your room, and we would appreciate your saving us the embarrassment of having to refuse a request to do so.
3. No transportation is available at this Headquarters for Restee Officers other than the regularly scheduled busses. Those who arrive with their own transportation should comply immediately with Memorandum (herewith) on the subject dated, 17 September 1945.
4. You will find the following agencies ready and glad to serve you: American Red Cross Officers' Club; Finance Office, PX, Officers' Clothing Store, Dispensary, Special and Information Service, Chaplains, and Military Police.
5. CASINO MUNICIPAL: The gambling facilities of the Casino Municipal at Cannes are "OFF LIMITS" to all U.S. Army personnel. This is in compliance with French National Law and U.S. Army Regulations. The foyer of the club will be used as the entrance to the theater and is not "OFF LIMITS".
6. Destruction of or damage to property will be charged to the officer responsible.
7. Non-requisitioned hotels are "OFF LIMITS" to all Restee Officers as billets.
8. YOU MUST CHECK OUT AT THE DESK BEFORE DEPARTURE.
9. Outside phone calls will be made ONLY from the Booths in the Lobby. There will be a charge. NO CALLS FROM ROOMS.
10. Meals will be served in the Dining Room at these hours ONLY: Breakfast; 0800 to 1000 hrs; Lunch; 1200 to 1400 hrs; Dinner; 1800 to 2100 hrs.

Constructive criticism is invited. If you have a good suggestion for the improvement of our set-up, bring it to Hq. USRRA, Cannes, Rm. 103, Carlton, or drop it in a Suggestion Box.

Donald E. Downard

Figure in Probe

Cynthia Hausner, 37, whose murder in Garmisch sharpened the probe into the alleged huge black market and narcotics ring centering on the town.

Played Roles in Probe

Col. William Nuckols, Air Force PRO, told the Senate about large security holdings by high-ranking procurement officers.

MGB Offers Aid in Expose Of Marketers

MUNICH, Jan. 13 (S&S)—Murray D. Van Wagoner, military governor of Bavaria, today offered the "full cooperation" of his office in exposing persons criminally involved in the suspected Garmisch black-market and dope ring.

In a formal statement, Van Wagoner said when first evidence of the suspected ring was discovered many months ago all information in MG hands was turned over to Army investigation agencies.

"Although fortunately in the minority," he said, "there are unscrupulous people of all nationalities in all countries only too willing to convert existing conditions to their own advantage, regardless of how much misery or suffering they cause others."

"The American bootlegger, the black marketer and the vicious Nazi all shared this utter ruthlessness and disregard for human decency."

CONFIDENTIAL

HEADQUARTERS
CIVIL ENGINEERING DIVISION
UNIT 1000
1000

1 October 1946

SUBJECT: Inspection of Electrical Department, Group "A"

TO: Commanding Officer, Headquarters, Naval
Censorship Division, 1000
Thru: Chief of Operations

1. The undersigned conducted an inspection of telecommunication censors in operations in Group "A" 16/17/18/19 October 1946. Telegraph, Telegraph/Teletype and technical sections were thoroughly visited, inspected and audited. This report covers the inspection and work conducted.

2. Quartermaster Field Station.

a. Telephone Section.

This section was inspected. Functions of this section are enthusiastically, and in order to ensure the highest quality of work censors in orders are instructed. It is suggested, however, that a master list of each room, indicating the location, and the organization of local staff list, a manual and relevant records be recommended that a sign be placed in each room to serve as a guide to the activities, be furnished to the division. A training manual for the line censors at each station should be prepared and available to the censors (see para. 2 d. 1. 1. 1.).

b. Technical Section.

The services of full-time electric technicians are required at this field station. This inspection office has learned that the censors in this station are the only ones for the various stations. The censors are located in the quarters, master list of telephones, and other telephones - printers, erection of the equipment for the various stations, and the services of the several subordinate stations. It is suggested that the censors be trained in the full-time effort of the electrical division.

c. Rel. Rang/Teletype Section.

Institution of a manual for the censors of the various stations is desirable at this time. It is suggested that a manual be added to the manual. A report of the censors at the various stations should be prepared.

True copy

(Page 2, Ltr. to Commanding Officer, Headquarters, CCB, dtd. 1 October 1946, Subj: Inspection of Electrical Shop, Group 1)

and Chief of Field Station were accepted for immediate implementation. The advisability of unification of the telegraph and teleprinter operations, at least to the point of being located on the same floor, is discouraged and is being favorably considered by the Chief of the Field Station. The majority of the average telegraph submission received by a consular station is discussed. The undersigned believes no more will be required to improve, refine, and develop the art of "the better communication" through full utilization of the historical and present resources. It is noted that:

- (1) systematic training and orientation is not conducted;
- (2) complete file of consular orders pertaining to telegraph regulations and conditions is not available for reference by the staff of the station.

a. General.

Some of the personnel are to be excused. Some all effort is proceeding with the intelligence and the consular staff is understood. All submissions are reviewed and the consular staff is, the consular regulations are discussed and the telegraph regulations. General security is provided, particularly in the consular office of the Chief of Station. The consular office, particularly the consular staff, remain in the consular office, and the office of the Chief of Station is on the third floor, and the telegraph and teleprinter are with Mr. D'Orsa on the main floor. The telegraph and teleprinter (including the teleprinter installed teleprinter) to the third floor is near as possible to the rest of the installation is also discussed and the teleprinter could be attached if space is not available. Mr. D'Orsa is negotiating for the telegraph space. The telegraph and teleprinter are of the telegraph staff. The telegraph and teleprinter are available to the telegraph staff at the telegraph station. The telegraph and teleprinter have not been given at least one telegraph vehicle. The telegraph and teleprinter station necessitate the telegraph and teleprinter transport to the telegraph requirement.

true copy

CONFIDENTIAL

(Page 3, tr. to Commanding Officer, Headquarters, 215, dt. 1 October 1946, Subj: "Practice of Electrical Department, Group 1")

3. Staff Officers of the Electrical Department.

a. Chief Engineer.

The incumbent is performing outstanding work, proving beyond doubt the great necessity for our "co-ordinating and reviewing" office in the far-flung Electrical construction operations. The one reviewer now assigned appears inadequate, and steps should be taken to furnish someone to fill this position. Some distribution of reports, periodicals, etc., is needed, from a review of the fact that the office of the Chief Engineer, Electrical Department, is still carrying the heavy burden of training which has not to date been assumed by the training unit under the Chief of Operations. This inspecting officer requests an immediate investigation by Chief of Training, Headquarters, 215, of this incomplete function in respect wherein no representative from Electrical Department was appointed, and, in fact, has the Electrical Department been notified of this matter, even though the training unit was in effect since 15 August 1946. The newly established jobs and functions of the relevant persons involved and the subordinate staff which are the result of the above described clarification by the Chief Engineer with the other members of the Electrical Department in this Group. Such co-ordination has been provided in the past and development of this office in this function. In close cooperation with the Chief Engineer, it is suggested that "vertical" and "horizontal" references be made, to the nearest investigation by the Chief Engineer, Electrical Department, and relevant records service of the Electrical Department. The co-ordinating and liaison of the Electrical Department in this office, it is felt, should be at the level of the Chief Engineer, Electrical Department, providing requirements, standard curves, and other aids in the development of the Electrical Department. It is suggested that the Chief Engineer, Electrical Department, be notified of all concerns. Instructions to be given to the Chief of the Electrical Department. It is suggested that the Chief Engineer, Electrical Department, Group 1, has even succeeded this Group's development of this development.

b. Chief of Telecommunications Section/Engineer, Electrical Department.

It is noted that the full scope of the work of this section should be after inter-branch telecommunication services for the whole of the Group. The incumbent in this position, however, is not performing the work.

true copy

CONFIDENTIAL

(-page 4, tr. to Commanding Officer, Headquarters, 1st Air Force, 1946, under Inspection of Electrical Department, Group 1)

vicious supervisor of mobile teams, special assignment units, and main station operations. Selection of auditors and the planning for the training of selected personnel for international telephone are now being undertaken. The probable prospects for this division will be towards international transit telephony. Discussed thoroughly, the plans are being made in co-ordination with the Chief Electrical Technician. Largest undertaking at present is the relocation of the moving of all telephone operations from Lindwarstrasse to the main station at 60, Muffstrasse, Munich. In that regard raised a number of adequate transportation, with serious handling installation, maintenance and operation of special assignment units and mobile teams. Slight curtailment of inter-city monitoring scope was discussed and agreed upon, making space and equipment available for probable monitoring of transit international. Inspecting officer recommended that main station inter-city coverage not be expanded nor split into two separate rows, but to find additional surveillance writing room furnished to relieve the main station and provide the procedure as here for this unit. The expansion of translation of electrical of all telephony supervisors was thoroughly discussed on basis of increased services of translator for personnel not qualified to make their own translations were raised to be necessary, advisable within the scope of the effort.

c. Chief Electrical Technician.

There are a number of field installations of this responsibility and number of field installations for the inspection and maintenance of main station and Lindwarstrasse to 60, Muffstrasse. Technical installations are under professional supervision and are under direct control, although the staff will not be directly "operated" for an electrical technician. The chief of staff co-ordination between Chief Electrical Technician and the District has been observed, and the efficiency of special assignment unit and mobile team installations was more than satisfactory. It is recommended, however, that a more frequent liaison be maintained with the SPT Officer, Munich. Problems of field installations, main station equipment, and spare part shortages, etc., were all discussed at length. The correct approach is being taken in reference to the frequency and special purpose time telephony and teletype, with several other main stations from main points for practical installations observation on demand or for periodic spot check.

True copy

CONFIDENTIAL

(Page 6, 5, ltr. to Commanding Officer, Headquarters, 33, rd.
1 October 1946, (sub: Inspection of Electrical Department, Group "A")

d. Chief of Telegraph/Teletype Operations.

It is a person in a position and the function of person, Telegraph/Teletype, this position is to a certain degree supervises in Group "A" at this time, although there is a great need in both the main and field stations for organization of the operational and administrative procedures of the Telegraph/Teletype section. The training and selection of personnel for this position is a task which needs to be advanced, and it is felt that a person in this position in all matters is needed. Doubtless, with the advent of international telegraph service the tasks of this position will be multiplied.

e. Assistant Chief, Electrical Department.

Although without previous censorship experience, the incumbent has in a very short space of time acquired working knowledge of the broad aspects of telecommunication censorship and has tackled vigorously the outstanding problems, such as:

- (1) Front office organization.
- (2) Top level departmental supervision.
- (3) Personnel administration.

The undersigned is impressed with the diligent diligence of Mr. Ladd, and is convinced that the number of accomplishments which have been achieved in a short period of time are a credit to his ability. He must not be overlooked in the selection of a person to fill the position. It is further suggested that, in view of the factors mentioned as well as the fact that the incumbent has had experience of neither censorship nor intelligence, Mr. Ladd be considered as a candidate for the position of Chief, Electrical Department during the tenure status of Mr. Ladd.

f. Main Station, which.

g. Chief, Main Station.

At the conclusion of this inspection it is recommended that the position of Chief, Main Station, Groups "A" and "B" be cancelled and that the functions be added to the responsibilities of the Assistant Chief. This is primarily due to:

true copy

(Para 6, ltr. to Commanding Officer, Sea. Quarters, 1, dtd. 1
October 1946, subj: Inspection of Electrical Section at Group "A")

- (1) Physical unity of the office and furniture installations with the Electrical Section at the office.
- (2) Group "A", as a field station, the burden of responsibility of the assistant chief and chief is correspondingly heavy.

b. Consultant.

While urgency for this position will not arise until we are confronted with international telecommunications traffic, the size and importance of the communication leads to undersigned to suggest that efforts be made to locate, create and train an incumbent for this position at this time.

c. Telephone Section.

The new quarters at Halfway Point present for the entire Electrical Department as well as the Telephone Section the very best that CCF has to offer in the way of up-to-date installations. (Certain security has been provided for; additional space for expansion is included; monitoring positions are attractive, light, and well designed; power lines unit expanding its functions in line with current directives and operational needs; single line installation is available for the installation of other lines; and this installation is at present time.

d. Technical Section.

With the repair section (Chief Electric) technicians in domain as Electrical Technicians, maintenance and installation functions are efficiently handled, considering the great handicap of equipment and spare part shortages. The repair shop, store room, and other space allotted the Technical Section is for the first time adequate. The frame (advantageously in a separate room) is adequate for all expected expansion. The internal departmental telephone system, although not yet complete, is a boon to efficient operations. Additional tools must be placed on the shelves, in order that the normal level of technical operations can be continued.

Very truly
yours

CONFIDENTIAL

(Page 17, Ltr. to Commanding Officer, Headquarters, 22, etc. 19
October 1946, Subj: Inspection of Electrical Department, "Grand")

e. Telegraph/Teletype Section.

One of the more advanced telegraph stations, Dachauerstrasse suffers from the disadvantage of being physically separated from the rest of the main station now centralized in Mullerstrasse. Recent expansion to cover the entire third floor gives adequate space for present and immediate future work load. The security of the installation, although not at present satisfactory, can be easily remedied. Specifically, a bolt for the swinging door and a similar bolt for entry will give a check on personnel entering telegraph station. A guard would then not be absolutely necessary. Signs depicting which operation is beyond which door (particularly offices of Censor and Assistant Censor) should somewhat reduce the confusion confronting any newcomer or inspecting officer. It is recommended that for the time being at least, the Chief of Telegraph/Teletype operations maintain his office in the Telegraph Section. Not to exclude, however, the frequent and lengthy conferences which seem to be needed with the Chief, Assistant Chief, and Chief Censor of the Electrical Department. A severe handicap in the proper handling of administrative and censorial matters is found in the complete lack of any filing system for reports, conscription orders, personnel qualifications, production records, correspondence, etc. Vigorous approach to this problem is necessary, including at least one filing cabinet, one file clerk, and one clerk-typist. The monitoring teletypewriters are very satisfactorily installed, and the 12X-circuit signalling switchboard installation in Park Street is adequately controlled and secure. If the outside circuit should ever lay cable from Union Repeater to Dachauerstrasse, it is recommended that additional cable be laid simultaneously, which would be at feasible to move the signalling switchboards directly into Dachauerstrasse. Sufficient cable does not exist at the present time. This inspecting officer makes the following recommendations:

- (1) Lighting fixtures be improved in certain rooms where examination is being performed or office work being done.
- (2) Tape binders be procured for the teletypewriter room.
- (3) A monthly file be set up for concerned telegrams.

A true copy

(Page 5, tr. to contain in office, see reports, 33, "10. 1
October 1, 46, subj: Inspection of Electrical Assistant, Group 1")

- (4) The general description to be given into the examination room, as far as possible, the partition separating the examination room from the office.
- (5) relevant records should be retained and not filed in the office of the subject.
- (6) The "case history" will be forwarded to the Bureau.
- (7) One jeep or other suitable transportation will be assigned full time to Dachauerstrasse as minimum transportation necessary.
- (8) Courier service (not daily) will be arranged to make at least four times daily, to make the first stop at the courier from Dachauerstrasse to the subject's residence.
- (9) Division of the case list and institution of a sorting system (see description of case history by Mr. Carlsson) be effected as to the subject, to the maximum extent possible.

It is felt that the inspection of the subject's residence should be made by the subject's family telephone, which is located in the subject's residence, to make valid useful, and to make sure that the subject is not used for criminal activities, in fact, the subject's residence should be searched in the subject's residence, and the subject should be searched in the subject's residence.

5. General.

a. IPF Instructions to other Reports.

It is felt that the practical arrangement of the IPF issue instructions as given to the Inspector General, and the Inspector General, to make sure that the subject's residence is searched in the subject's residence, and the subject's residence is searched in the subject's residence, and the subject's residence is searched in the subject's residence, and the subject's residence is searched in the subject's residence.

CONFIDENTIAL

(Page 9, tr. to Commanding Officer, Headquarters, 31st, etc. by
October 1946, Subj: Inspection of Electrical Department, Group 10)

b. Closer Contact of Commanding Officer and Chief of Operations with Electrical Department.

Confidence in the Chief of the Electrical Department is certainly desirable, but the inspecting officer feels that the multitudinous very pressing problems and the telecommunication censorship cannot be fully appreciated nor their full value ascertained by the Commanding Officer and Chief of Operations unless frequent visits to electrical stations, particularly to the main station and the Main Station are accomplished. It is also necessary that understanding and help be forthcoming from these visits, as well as criticism and "inspection", because of electrician's recent rapid growth in the tasks yet to be met by the new telecommunication telecommunication. The undersigned recently visited neither the Chief of Operations nor the Chief of Operations. He visited Wunsburg or the main station of the main station (which is the pride and joy of electrical department of the station). He friendly touch, verbal or written, and the time was spent in these critical stages of development of the department, and somewhat crippled hands of the electrical department, etc.

c. Transportation.

Difficulties encountered in regard to transportation to the rear of the group. The undersigned has had to go to the electrical department to the rear of the group, and has recognized the need for a more efficient transportation, and by the special assistance of the undersigned, the undersigned is willing to sacrifice of his own time and effort for the benefit of the department. The times that electrical department, representative of the group of the group, etc., have been transported, secured, and taken to unusual devices to secure even urgent transportation, are without number. At times detached personnel, even when required to report back to Group Headquarters, are not provided with transportation. This situation exists in respect to the undersigned, and the undersigned transportation, places electrical department in a position of difficulty. Finally, the undersigned, in regard to the undersigned, and the undersigned means of travel, in order to accomplish the undersigned, that the undersigned expects operationally, but fails to provide the undersigned. This point is not raised as a new question - the undersigned is not the effect of the transportation situation, etc.

CONFIDENTIAL

(para 10, Ltr. to Commanding Officer, Headquarters, etc., dtd. 1
October 1946, Subj: Inspection of Electrical Department, Group " ")

6. The inspecting officer wishes to commend the Electrical Department of Group " " for having made strong forward strides in a comparatively short period of time in the field of censorship. Every effort was extended by the Commanding Officer, Adjutant and Electrical Department personnel of Group " " to make this inspection complete, useful, and a real success from a point of view of better acquainting Headquarters CCB with electrical censorship operations, as well as improving by suggestion, discussion, and recommendation of practices employed within the inspected Electrical Department.

3. LIBRARY. The collection of books, pamphlets, and other printed matter, as well as all statistics, reports, and other documents, is housed in the Library. The Library is open to all members of the Society and to the public. The Library is a valuable resource for the study of the history and development of the Society.

4. MEMBERSHIP. The Society is open to all persons who are interested in the study of the history and development of the Society. The membership is divided into several classes, including Life Members, Sustaining Members, and Ordinary Members. The Society also has a number of honorary members.

H. MEMBERSHIP. The Society is open to all persons who are interested in the study of the history and development of the Society. The membership is divided into several classes, including Life Members, Sustaining Members, and Ordinary Members. The Society also has a number of honorary members.

I. MEMBERSHIP. The Society is open to all persons who are interested in the study of the history and development of the Society. The membership is divided into several classes, including Life Members, Sustaining Members, and Ordinary Members. The Society also has a number of honorary members.

J. MEMBERSHIP. The Society is open to all persons who are interested in the study of the history and development of the Society. The membership is divided into several classes, including Life Members, Sustaining Members, and Ordinary Members. The Society also has a number of honorary members.

K. MEMBERSHIP. The Society is open to all persons who are interested in the study of the history and development of the Society. The membership is divided into several classes, including Life Members, Sustaining Members, and Ordinary Members. The Society also has a number of honorary members.

L. MEMBERSHIP. The Society is open to all persons who are interested in the study of the history and development of the Society. The membership is divided into several classes, including Life Members, Sustaining Members, and Ordinary Members. The Society also has a number of honorary members.

of workers (10) are qualified linguists. They work the same shifts as U.S. and Allied civilians. They will be used for external traffic exclusively. DIO's are, and will be, U.S. or Allied employees.

M. PREPARATION SECTION. Six watch lists are in operation, which will be grouped in certain letters of the alphabet. Telegrams will be sorted and scrutinized for sender, addressee and third party names, respectively, involving a triple sorting procedure. Sorting will be done by Allied civilians.

H. INTERNAL TELEGRAMS. No forms for the handling of telegrams were available as yet to enable comparison with forms used in the Department.

O. BACKGROUND INFORMATION. Each suspicious telegram, if accessible is copied on a card file system in order to collect available material for future reference.

2. The impressions gained by the writer from a visit to the cable plant to be very good, in spite of the fact that the plant is very old, inadequate transportation, very poor food, no recreation facilities in Dulles, and a very strict security system. The plant is well underground, the ventilation system is very good, and the lighting is excellent within conditions of the plant. Electrical plant is well equipped, frequently repaired and detouring is not a problem. The plant is a "Success story" and the writer is very impressed.

3. The following recommendations are made:
A. The plant should be expanded to include a recreation area.
B. The plant should be expanded to include a recreation area.

C. "Clippings" should be made of all news items of civil and military publications.

D. The bread, rather than the rice, should be used as the staple food and recreational facilities are available for all employees to remain in static during that period.

E. The recreational facilities should be expanded to include a recreation area.

F. The plant should be expanded to include a recreation area.

Report on Group "A"

11 December 1946

H. Additional stress to be placed on IRD to handle more "Special Request" cases.

I. User Agencies to furnish code titles for "Special Request" cases.

J. Keep Mobile Teams a minimum of at least eight (8) weeks at one place.

K. Periodic visits of staff members and their dependents on an exchange basis.

4. In addition to the above, the visit has all other thoughts which will be developed for the benefit of this department.

TO MY CO-WORKERS AND FRIENDS: *Miss Edith Falk.*

I wish all, each and everyone of you, a Very Merry Blessed Christmas and a Happy Prosperous New Year.

On this first Christmas after a most horrible struggle to lift humanity from the ignominious depth to which it had degraded, each one of us will say, from the bottom of our hearts "Peace on Earth Good Will Toward Men", and resolve in this coming year and the future to make life happier and finer.

NOTICE OF OFFICIAL EFFICIENCY RATING

To The Employee: The reverse of this form is a duplicate of your official efficiency rating on file in the civilian personnel office. This copy serves as notice to you of your official efficiency rating. You should study it carefully so that you will understand the elements of your rating which require corrective effort and so that you will have a good understanding of the efficiency rating process.

Information and Guidance:

You are entitled to inspect the final ratings (not the rating forms) of all employees in your office or station. These are available in your civilian personnel office.

If you believe your rating is wrong, you should first discuss it with your supervisor. You also have the right to request a hearing and review of your rating by your local efficiency rating committee. If you are dissatisfied with the decision of the committee issued to you in writing by the Commanding Officer, you may, within certain time limitations, file a written appeal to the Chairman, War Department Efficiency Rating Board of Review, part of the Civil Service Commission, Washington 25, D.C., provided your position is subject to the Classification Act. The decision of this board is final.

SIGNIFICANCE OF EFFICIENCY RATINGS

An efficiency rating of "Good", "Very Good", or "Excellent" is necessary in order to receive a periodic within-grade salary advancement.

An efficiency rating of "Fair" requires a one-step salary reduction if an employee's pay rate is above the middle rate for his grade (the fourth step in six-rate grades).

An efficiency rating of "Unsatisfactory" requires that the employee be dismissed or reassigned to other work in which he could be reasonably expected to render satisfactory service.

Efficiency ratings are a factor in determining the order in which employees are affected by reductions in force.

NOTICE OF EFFICIENCY RATING

X OFFICIAL SPECIAL

~~XXXXXXXXXXXXXX~~

~~XXXXXXXXXXXXXX~~

TO: FALK, Edith C. (WDE) Actg Chief Censor CAF-7 ELECTRICAL

You are advised that your efficiency rating for the period ending 30.9.46 is (E).

Interpretation of Efficiency Ratings:

- Excellent: (E) means that performance in every important phase of the work was outstanding and there was no weakness in performance in any respect.
- Very Good: (VG) means that performance in at least half of the important phases of the work was outstanding and there was no weakness in performance in any respect.
- Good: (G) means that performance met requirements from an over-all point of view.
- Fair: (F) means that performance did not quite measure up to requirements from an over-all point of view.
- Unsatisfactory: (U) means that performance in a majority of important phases of the work did not meet job requirements.

Subject: Notification of Efficiency Rating

Your Efficiency Rating for the 12-month period ended March 31st is indicated below:

Efficiency Rating
EXCELLENT

Classification	
Title	
CENSORSHIP CLERK TRANSLATOR	
Service	Grade
CAF	4

INTERPRETATION

Excellent means that performance in all of the important elements of a particular position is "outstanding" and that no part of the performance is "weak".

Very Good means that performance in a majority of the important elements of a particular position is "outstanding" and that no part of the performance is "weak".

Good means that performance in all important elements of a particular position is either "outstanding" or "adequate" and elements of performance which are "weak" are fully compensated by "outstanding" performance in other elements--or, a majority of important elements of a particular position are either "outstanding" or "adequate" and those important elements which are "weak" are over-compensated by "outstanding" performance in other important elements.

Fair means that performance in a majority of important elements of a particular position is either "outstanding" or "adequate" and that elements of a performance which are "weak" are not compensated by "outstanding" performance.

Unsatisfactory means that performance in a majority of important elements of a particular position is "weak".

SUBJECT: Letter of Commendation

TO : Miss Edith Falk, Group "A", 7742 Civil Censorship Division,
EUCOM, APO 407, U. S. Army

1. This Headquarters received a letter from Brigadier General Walter J. Muller, Director of Office of Military Government for Bavaria, acknowledging the assistance and cooperation given Military Government in conducting investigations in a certain Bavarian Land-kreis. In his letter, General Muller stated that the performance of the CCD Teams was outstanding.

2. The success of this mission was almost entirely due to the efforts, intelligence and enthusiasm of the several members of the team, technicians, Chief Censor, and Chief of the Telecommunications Department. I desire to especially acknowledge the work of Miss Edith Falk, Mr. Karl Oltmann, Miss Hilda Jarman, Mrs. Alice Buck, Miss Stefania Glogau, Mr. Phillip Plon, Mr. Gerhard Baum, Mr. Moritz Sieradzki, Mr. Neil Beckman, and Mr. Bela Zempleny.

3. A copy of this letter will be made a part of your official 201 file.

TO WHOM IT MAY CONCERN.

1. War Department employee Edith Falk as Chief Censor of Telecommunications Department this Group has for more than one year been closely associated with intelligence operations conducted by the undersigned in his official capacity.

2. Miss Falk as the Telecommunications expert on technical censorship regulations and requirements maintained close daily liaison with this department and coordinated our special requirements with the group's Field Stations and Special Assignment Units. She supervised and directed "Special Surveys" and obtained specific data for the preparation of "Informational Bulletins" for the use of personnel in the Telecommunications Department. Closely supervised activities of Relevant Records Analysts, stationed in this department, coordinated requirements such as Watch Listings, Background Cards, Packed and Unpacked Cable Addresses with Telephone Section, Main Station, Tel.&Tel. Section, Main Station and Telephone & Tel.&Tel. Section, Field Station, Augsburg. Clarified problems of Field Stations, Mobile Teams and Special Assignment Units through personal visits to operating units in the field. Was responsible for dissemination, interpretation and clarification of Technical Censorship Regulations, Headquarters Directives and Informational Requirements of this Department.- Prepared and held lectures at periodic intervals on subjects affecting present day German Governmental Structure and its importance to censorship operations. - Maintained uniform quality of reportable material submitted on standard referral forms to this Department.

3. During her service with Telecommunications Department Miss Falk rendered outstanding cooperation to the undersigned and to the Information & Records Department in general. Her sense of responsibility and tact, even under difficult conditions were a source of inspiration to the staff of this department, composed of all nationalities and all walks of life. Her loyal application to and her constant interest in this Department's intelligence requirements contributed greatly to making our mission a success in the Theater. I shall always consider it a personal privilege to number Miss FALK among my friends or to be associated with her in the future in any undertaking whatsoever.

INFORMATION & RECORD DEPARTMENT
GROUP "A" 1742 CIVIL CENSORSHIP DIVISION
EUROPEAN SCITLAND
APC 107 U. S. ARMY.

6 October 1947

TO WHOM IT MAY CONCERN.

1. War Department Employee Edith Falk as Chief Censor of Telecommunications Department this Group has for more than one year been closely associated with intelligence operations conducted by the undersigned in his official capacity.

2. Miss Falk as the Telecommunications expert on technical censorship regulations and requirements maintained close daily liaison with this department and coordinated our special requirements with the group's Field Stations and Special Assignment Units. She supervised and directed "Special Surveys" and obtained specific data for the preparation of "Informational Bulletins" for the use of personnel in the Telecommunications Department. Closely supervised activities of Relevant Records Analysts, stationed in this department, coordinated requirements such as Watch Listings, Background Cards, Packed and Unpacked Cable Addresses with Telephone Section, Main Station, Tel.&Tel. Section, Main Station and Telephone & Tel.&Tel. Section, Field Station, Augsburg. Clarified problems of Field Stations, Mobile Teams and Special Assignment Units through personal visits to operating units in the field. Was responsible for dissemination, interpretation and clarification of Technical Censorship Regulations, Headquarters Directives and Informational Requirements of this Department.- Prepared and held lectures at periodic intervals on subjects affecting present day German Governmental Structure and its importance to censorship operations. - Maintained uniform quality of reportable material submitted on standard referral forms to this Department.

3. During her service with Telecommunications Department Miss Falk rendered outstanding cooperation to the undersigned and to the Information & Records Department in general. Her sense of responsibility and tact, even under difficult conditions were a source of inspiration to the staff of this department, composed of all nationalities and all walks of life. Her loyal application to and her constant interest in this Department's intelligence requirements contributed greatly to making our mission a success in the Theater. I shall always consider it a personal privilege to number Miss FALK among my friends or to be associated with her in the future in any undertaking whatsoever.

(signed) W. KALDAUKE
Chief IRD.

HEADQUARTERS
GROUP "A", 7742 CIVIL CENSORSHIP DIVISION
EUROPEAN COMMAND
APO 407 US ARMY LAW/lbr

Memorandum: 20 October 1947

Unnumbered: Clearance

1. Due to the proximity and uncertainty of the exact inactivation date of Group "A", effective this date the following instructions will be complied with by all personnel prior to departing this station on separation leave (Thirty days leave without pay prior to return to original place of engagement).

a. Preliminary clearance form will be executed prior to departure.

b. All baggage and other personal belongings not taken with the individual while on leave will be packed or crated and placed in the baggage storage center which has been established in House #5 (across from Motor Pool).

c. All baggage must be clearly marked with the owner's name. A receipt for each item of baggage will be given to the owner at the time the baggage is deposited in the storage center.

d. The baggage storage center will be guarded twenty-four (24) hours daily. It will be open for receiving and delivering baggage as follows:

0800 - 1000	Monday through Saturday
1400 - 1600	Monday through Friday

e. Transportation will be available on call to the S-4 to take baggage to the baggage center

f. Personnel proceeding on separation leave will vacate their billets on or before the date of commencement of leave.

2. Upon completion of leave personnel will report back to Pullach for final instructions regarding processing out.

3. If, at time of return, the Pullach Compound should no longer be occupied by (??), an office will be located in the vicinity of the Compound (probably the Mess Hall) where personnel will complete final clearance.

4. Upon surrender of baggage receipts baggage will be withdrawn from storage and returned to owner.

5. A charge of fifty (\$.50) cents per night will be made for billets required after permanent billet assignment has been vacated.

Chief of Staff, [Organization]

U. S. ARMY
COMMUNICATIONS DIVISION
WASHINGTON, D. C.
NOV 1947

21 October 1947

SUBJECT: LETTER OF RECOMMENDATION
TO: MR. HENRY BENDIS.

Miss Edith Falk has been on continuous duty with this organization since April 1945. As Chief censor, Miss Falk had censorship, operational charge of the Telecommunications Department and was directly responsible to the and assigned for interpreting, in lettering, and executing all censorship instructions from group and division headquarters.

Miss Falk evaluated and discriminated all information gathered from the various sub-sections and field stations; in these tasks she demonstrated excellent judgment and knowledge of world conditions and particularly of conditions in Germany.

When organizational changes were instituted in this department, Miss Falk showed exceptional abilities in planning and organizing. In making recommendations for the distribution of assigned personnel she demonstrated great ability in judging people, assigning specific duties to the best qualified individuals, and in so advising them.

Miss Falk performed all of the above and numerous other tasks thoroughly and enthusiastically in a cheerful, unassuming manner. A great share of the credit for this Department's successful completion of its assigned mission can and must be contributed to her.

As Chief of the Telecommunications Department I have by command Miss Falk for her loyalty and service and recommend her very highly to any organization.

INFORMATIONAL BULLETIN NO. 118

7 November 1947

I. LONG DISTANCE TELEPHONE CALLS

1. As of 8 November 1947 all long distance calls placed with the Deutsche Post Munich Trunks operator will be booked. Subscribers will be informed of the approximate time they can expect to complete the call. The subscriber may call the booking operator to inquire as to the status of his call giving his number and the place of number called.

a. If possible the calling party should give two numbers where the party being called may be reached. Also if possible give additional number over which the calling party may be reached. As far as possible, avoid using your telephone while awaiting completion of your long distance call.

b. Records indicate that the main difficulties in completing long distance calls are:

- (1) The called party's telephone is busy.
- (2) The calling party's telephone is busy when the call back is made, or the calling party has left the vicinity of his telephone.

2. The officer or civilian in charge of an official telephone is responsible that:

a. Only official calls are made from the telephone. (In the event that non-official toll calls are made he is responsible for payment of the tolls. Use of official telephones for personal toll calls will result in disconnection of the telephone).

b. A certified record of official toll calls is submitted each week.

3. Official international telephone calls may be made only after specific authority for each call is secured from the telephone control officer. Official international calls will be reported on the weekly report of toll calls. No permission is required for making personal international calls from Class B telephones.

(Adj. Office)

II. New Location of Red Cross Field Director

The office of the American Red Cross Post Field Director is now located at #14 Schumannstrasse, Munich, diagonally across from the Kamera Theater.

(Adj. Office)

III. TRAVEL CLEARANCE

All personnel, civilian, as well as military, are advised that when clearance is approved by Hqs EUCOM, no travel during a definite period and personnel do not avail themselves of the approval, that clearance cannot be used for a later date. A new clearance must be requested and approved before travel orders will be issued by this headquarters.

(Adj. Office)

7 November 1947

IV. SPECIAL ORDERS, LEAVE AND TRAVEL ORDERS

Personnel (Military and Civilian) assigned or attached to Munich Military Post are reminded that they will not call at Military Personnel Section for Special Orders, Leave and Travel Orders but will obtain them in accordance with provisions of Par. 2, Daily Bulletin #205, this headquarters, 29 Oct 1947. Your attention is also invited to unnumbered memorandum addressed to all personnel under jurisdiction of Munich Military Post, issued by this headquarters (Munich Military Post), 15 September 1947.
